Model "170-SSP" "Mini" Band-Splitter

B&D's new "Mini" Band-Splitter was designed for high production splitting of hogs, sheep, lamb and mutton. This one of a kind tool is available with three different size yokes to accommodate a wide variety of animal sizes. It can handle up to 400 hogs or sheep per hour. This revolutionary tool fits easily in between all gambrels for ease of operation. The new compact and lightweight design adds to the overall ergonomics. Other tool features include:

- Full 1-1/2 HP, totally enclosed, self-cooled, waterproof motor,
- Direct Drive System from motor shaft,
- Waterproof quick-disconnect at motor end,
- Smallest nose height available in the industry - 8-3/8" with a - minimal 1-3/4" nose thickness,
- Smallest overall length ... depending on yoke size chosen ... 38", 36" and 34" sizes available,
- Dual Anti-Tie down control triggers for safe operation,
- Available with proximity switches on front and rear covers ... will not allow drive wheels to operate when front or rear covers are open.
- Meets national and international requirements for hygiene and safety ... USDA and CE approved.
