Air Model "HB-6" Hog Breastbone Opener Saw

New model features ...

- Specially designed ergonomics grip, reduces vibration by 25%!
- Exclusive Splash Guard!

B&D's new Model "HB-6" is now lighter and more powerful! This concept for opening pork briskets provides a lightweight and perfectly balanced tool that does not require counterbalancing. Features a new ergonomics grip which provides less vibration, eliminating the bone chilling effects of aluminum-housed air motors; multiple rear-end air exhaust; an instant-stop blade; and is equipped with a specially designed guard which controls the cutting depth to 1-3/4" (44.45mm). Unit has a net weight of only 6 lbs (2.72 kilos) ... including the 6-1/2" (165.10mm) diameter blade.

Overall length: 16" (406.40mm)

- If desired, machines can be counterbalanced using a #6342200 balancer - 6.56 ft.(2m) cable travel.

Available with
European
Exhaust
Part #6349903.
